Unit 1

Getting Started

- 1 Look at the large sound box. One of these starts every unit and tells you the sound for that unit. Look at the **icon**, the **graphemes** (letters) and **word examples** in the large sound box.

Large Sound Box

 **or ore a aw au** **horse core ball paw sauce**

icon graphemes (spelling choices) examples of words with these graphemes

- 2 Look at the small sound box. **Say** the icon name aloud. **Look** at the first grapheme. **Make** the sound that this grapheme represents in the icon name. **Say** this sound every time you see  **or ore a aw au**.

Small Sound Box

Your turn

Go to Unit 13. **Say** the sound for the sound box at the top of the page.

Go to Unit 15. **Find** a small sound box and say the sound it represents.

Use your Student Chart. **Say** all the sounds represented by the sound boxes.

- 3 **Say** the word **awfully** out loud, listening for each sound. **Awfully** has seven letters but only five sounds.

Your turn

Count the sounds on your fingers.

cabbage _____ biscuit _____

- 4 When we write words we represent each sound in the word with a letter or a group of letters called graphemes.

| a w | f | u | l l | y |

Your turn

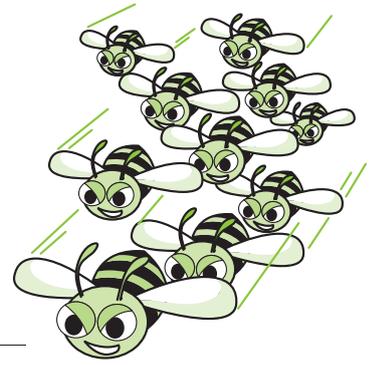

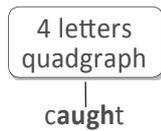

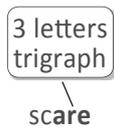

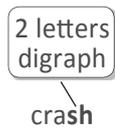

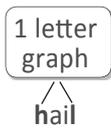

Write the word **cabbage** in the spaces, writing a grapheme for each sound in one space.

--	--	--	--	--

Separate this word into the graphemes for the sounds in the word, with vertical strokes.

 Use your Student Chart to help you. b i s c u i t

5 Grapheme groups have these names.

Your turn

How many of the following are there in this word? **daughter**

graphs _____ digraphs _____ trigraphs _____ quadgraphs _____

6 The sounds in a word can change depending on how the word is pronounced.

The letter **e** in **record** could represent (e ea) or (er ar or a e i ou).

Say the word **record** in two different ways.

Your turn

Say the word **excuse** in two different ways. **Finish** this sentence by drawing the correct sound boxes.

The **se** in **excuse** could represent or .

Use your Student Chart to help you.

7 The number of sounds in a word can be different depending on how the word is pronounced.

The word **separate** could have six sounds — |s|e|p|a|r|a|te|, or it could have seven sounds — |s|e|p|a|r|a|te|.

Your turn

Think of two different ways to pronounce these words.

general

mystery

8 Sometimes there is more than one way to break up a word into its graphemes (spelling choices for the sound).

Cupboard could be |c|u|p|b|o|a|r|d| or |c|u|p|b|o|a|r|d|

Your turn

Can you think of two different ways to break this word into graphemes?

ocean | | | | | **ocean** | | | | |

9 On pages 86–87, you will find **Helpful Hints**. They provide information to help you when you are working on the activities throughout this book.

Your Turn

Go to Helpful Hints to explore all the information.

Look at these symbols. **Read** the information beside each one. When you see these symbols in your book, if you can't remember what they mean you can always look back on this page to remind yourself.

★ **Hint** – Here is some useful information to help you with the activity.

👉 **Help** – Go to the **Helpful Hints** pages for help with the activity.

The kilometre

Longer distances are measured in **kilometres**. There are **1000 metres** in 1 kilometre. Trundle wheels are often used to measure long distances because each revolution equals 1 metre.

10 How many times would a trundle wheel click when measuring 1 kilometre? _____

Measuring 1 kilometre

11 You will need a trundle wheel and about 10 traffic cones. With your teacher, select an area that you think is about 1 kilometre long. Mark your starting point with a traffic cone and begin walking in a straight line, counting the clicks of the trundle wheel as you go. At the count of every 100 metres place a cone until you have covered 1000 metres.

10 × 100 m equals 1 km.

Mark out a 1 kilometre cross-country course

12 In your school, mark out a cross-country course that is about 1 kilometre. You may need to write some distances in chalk on the ground or mark distances with markers.

Use a stopwatch to record how long it takes your group members to run your course.

13 Use the map of New South Wales and the distances from Sydney to calculate the distances between these places.

Town	Distance from Sydney
Kingscliff	840 km
Coffs Harbour	558 km
Port Macquarie	407 km
Newcastle	162 km
Sydney	
Wollongong	78 km
Bega	446 km
Merimbula	456 km

a

Kingscliff Port Macquarie	
Distance	

b

Bega Wollongong	
Distance	

c

Coffs Harbour Newcastle	
Distance	

d

Port Macquarie Newcastle	
Distance	

e

Merimbula Wollongong	
Distance	

14 Use a street directory or online map to help you name locations about $\frac{1}{2}$ a km from school, about 1 km from school and about 2 km from school. Measure some of the distances to check your accuracy.

About $\frac{1}{2}$ km

About 1 km

About 2 km

Multiplication facts, times 4

4 Write a multiplication fact to describe each array.

a  $\square \times \square = \square$

b  $\square \times \square = \square$

c  $\square \times \square = \square$

d  $\square \times \square = \square$

5 Skip count to complete the table of fours and other related facts.

	a	$1 \times 4 =$		b	$3 \times 4 =$	
		$2 \times 4 =$			$5 \times 4 =$	
		$3 \times 4 =$			$7 \times 4 =$	
		$4 \times 4 =$			$6 \times 4 =$	
		$5 \times 4 =$			$8 \times 4 =$	
		$6 \times 4 =$			$2 \times 4 =$	
		$7 \times 4 =$			$1 \times 4 =$	
		$8 \times 4 =$			$0 \times 4 =$	
		$9 \times 4 =$			$10 \times 4 =$	
		$10 \times 4 =$			$4 \times 4 =$	

6 Use the multiplication facts of 4 to answer the divisions.

a	4	÷	4	=		f	20	÷	4	=	
b	12	÷	4	=		g	28	÷	4	=	
c	8	÷	4	=		h	40	÷	4	=	
d	16	÷	4	=		i	32	÷	4	=	
e	24	÷	4	=		j	36	÷	4	=	

To solve $20 \div 4$
think $4 \times \square = 20$

7 Write a problem to match this number sentence: $6 \times 4 = 24$.

The kilometre

Longer distances are measured in **kilometres**. There are **1000 metres** in 1 kilometre. Trundle wheels are often used to measure long distances because each revolution equals 1 metre.

- 10 How many times would a trundle wheel click when measuring 1 kilometre? _____

Measuring 1 kilometre

- 11 You will need a trundle wheel and about 10 traffic cones. With your teacher, select an area that you think is about 1 kilometre long. Mark your starting point with a traffic cone and begin walking in a straight line, counting the clicks of the trundle wheel as you go. At the count of every 100 metres place a cone until you have covered 1000 metres.

10 × 100 m
equals 1 km.

Mark out a 1 kilometre cross-country course

11 Which objects above are most suitable for packing or stacking? _____

12 Explain why. _____

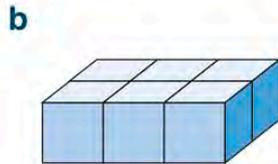

A base unit for measuring **volume** is the **cubic centimetre**. It can be shown by a cube measuring 1 cm long, 1 cm wide and 1 cm high. A centicube or MAB one are good examples of a cubic centimetre (cm^3).

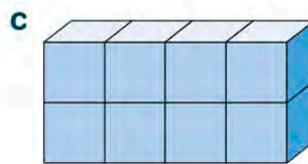

13 Use centicubes or MAB ones to build each prism, then record the volume of each.

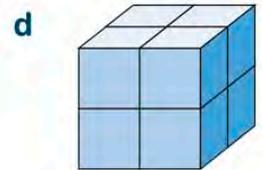

_____ cm^3

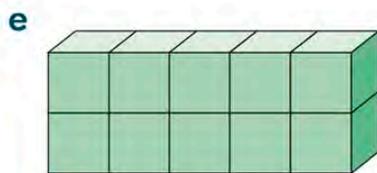

_____ cm^3

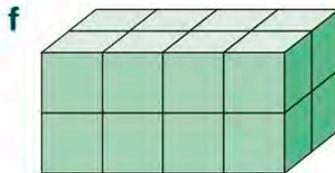

_____ cm^3

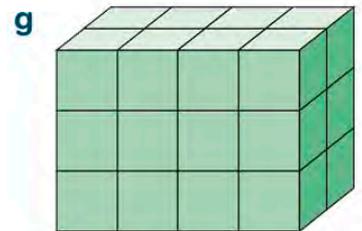

_____ cm^3

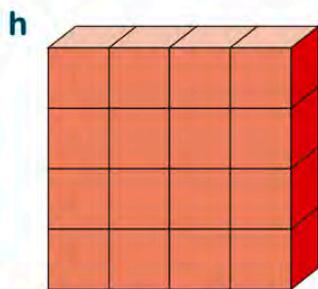

_____ cm^3

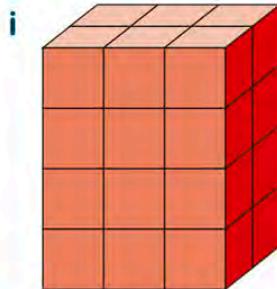

_____ cm^3

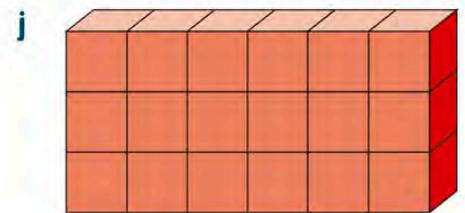

_____ cm^3

_____ cm^3

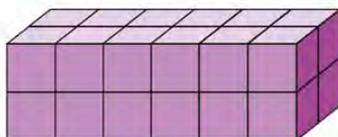

_____ cm^3

_____ cm^3

14 **Challenge!**
Daya has constructed a shape that has a volume of 24 cm^3 . Construct a shape of your own that has the same volume, then sketch it in the box.

Addition and subtraction strategies

Last year the following strategies were taught.
Use them to answer the questions on this page.

1 Use your knowledge of number facts to extend these additions and subtractions.

a $7 + 8 =$ _____ g $300 + 700 =$ _____

b $70 + 80 =$ _____ h $800 - 400 =$ _____

c $700 + 800 =$ _____ i $400 + 900 =$ _____

d $60 + 70 =$ _____ j $180 + 70 =$ _____

e $90 + 50 =$ _____ k $250 + 80 =$ _____

f $150 - 60 =$ _____ l $800 - 500 =$ _____

$3 + 5 = 8$,
so $30 + 50 = 80$
and
 $300 + 500 = 800$.

2 Use the jump strategy to add and subtract these numbers.

a $26 + 15 =$ _____ h $57 - 26 =$ _____ o $148 + 24 =$ _____

b $35 + 27 =$ _____ i $68 + 29 =$ _____ p $137 - 36 =$ _____

c $46 + 42 =$ _____ j $78 + 36 =$ _____ q $146 + 25 =$ _____

d $35 + 23 =$ _____ k $127 - 25 =$ _____ r $157 - 26 =$ _____

e $48 - 25 =$ _____ l $132 + 37 =$ _____ s $185 - 24 =$ _____

f $58 - 37 =$ _____ m $156 + 23 =$ _____ t $297 + 33 =$ _____

g $63 + 65 =$ _____ n $142 + 34 =$ _____ u $347 + 46 =$ _____

$38 + 43?$
Think
 $38 + 40 + 3 = 81$.

$35 + 48?$
Think
 $35 + 50$ minus 2.

3 Add the numbers mentally using the compensation strategy.

a $24 + 39 =$ _____ e $27 + 42 =$ _____ i $336 + 33 =$ _____

b $36 + 28 =$ _____ f $53 + 38 =$ _____ j $242 + 41 =$ _____

c $54 + 21 =$ _____ g $36 + 32 =$ _____ k $137 + 57 =$ _____

d $47 + 49 =$ _____ h $47 + 32 =$ _____ l $545 + 27 =$ _____

4 Subtract the numbers mentally using the compensation strategy.

a $65 - 29 =$ _____ e $83 - 49 =$ _____ i $196 - 37 =$ _____

b $72 - 39 =$ _____ f $92 - 78 =$ _____ j $285 - 57 =$ _____

c $85 - 38 =$ _____ g $64 - 37 =$ _____ k $174 - 36 =$ _____

d $73 - 49 =$ _____ h $72 - 37 =$ _____ l $283 - 58 =$ _____

$64 - 29?$
Think
 $64 - 30 + 1$.

5 Use the strategies above to write addition and subtraction number sentences that have an answer of 54.

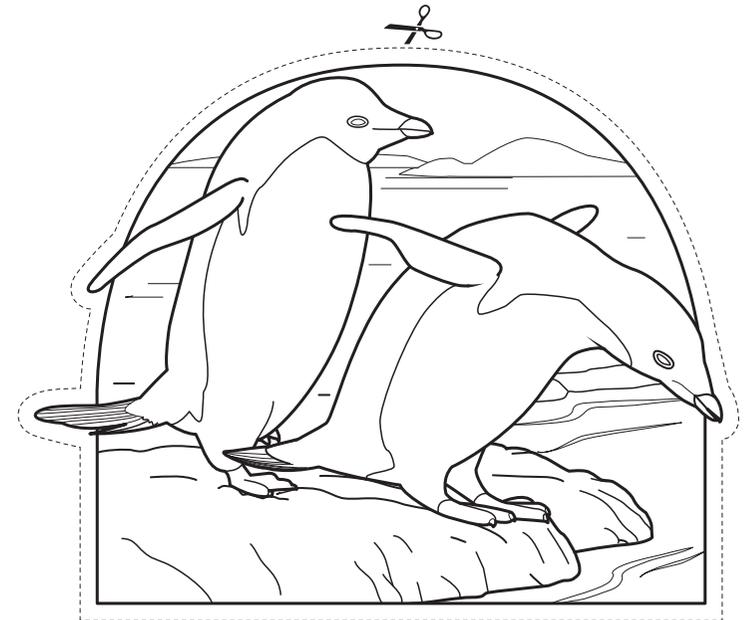

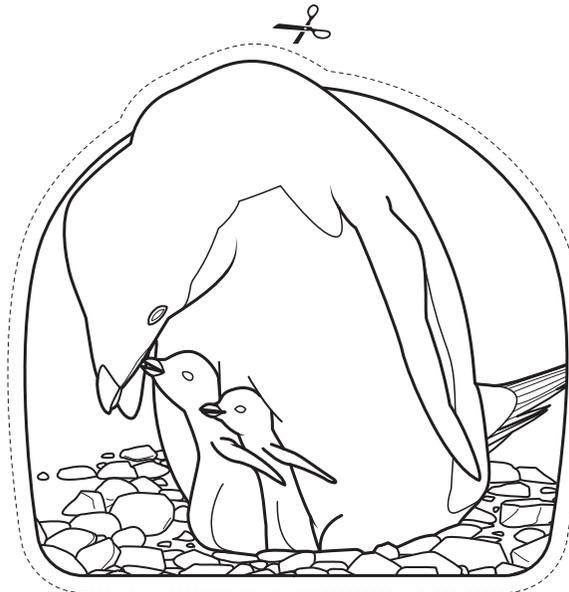

$39 + 15 = 54$

Sequencing Life Cycles

Cut out the sentences below. Paste the turtle descriptions underneath the matching picture on the turtle life cycle template (in the correct order). Do the same with the penguin descriptions.

Hatchlings crawl to the sand's surface and head to the ocean.

Mother penguin lays two eggs in a nest. The mother and father take turns looking after the eggs and hunting for food.

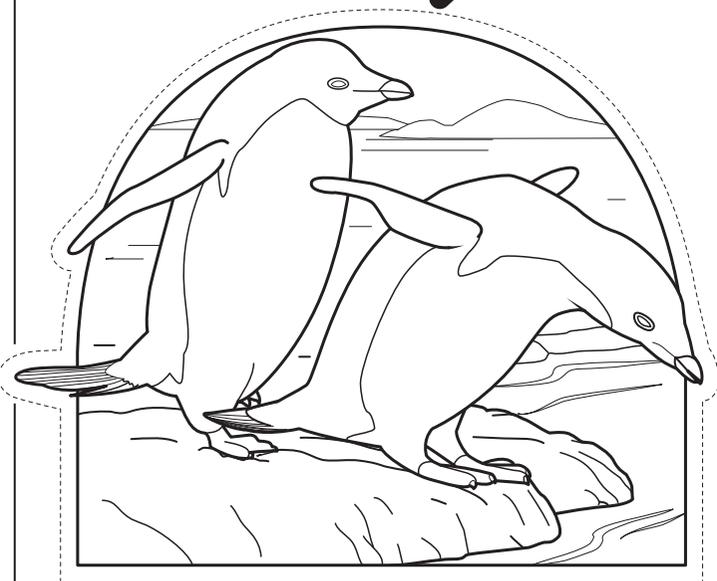

The chicks hatch. They have downy feathers.

Turtles spend many years swimming and living in oceans.

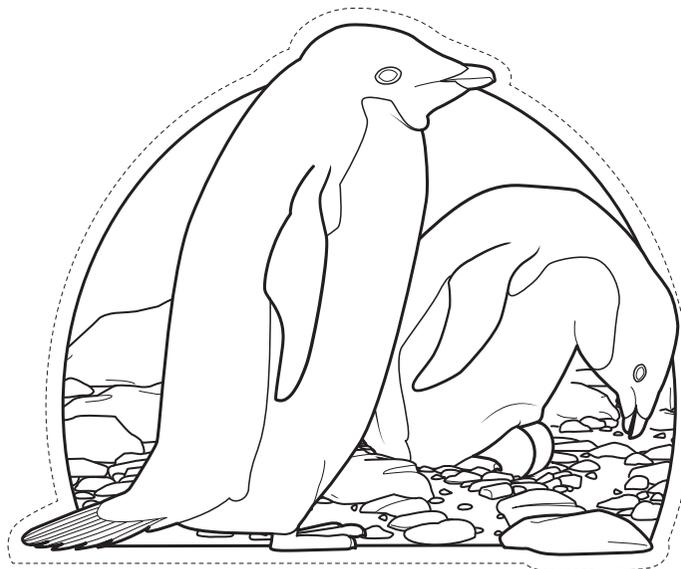

The adult turtle lays many eggs on a nesting beach.

Chicks grow quickly. They are able to swim on their own in about nine weeks.

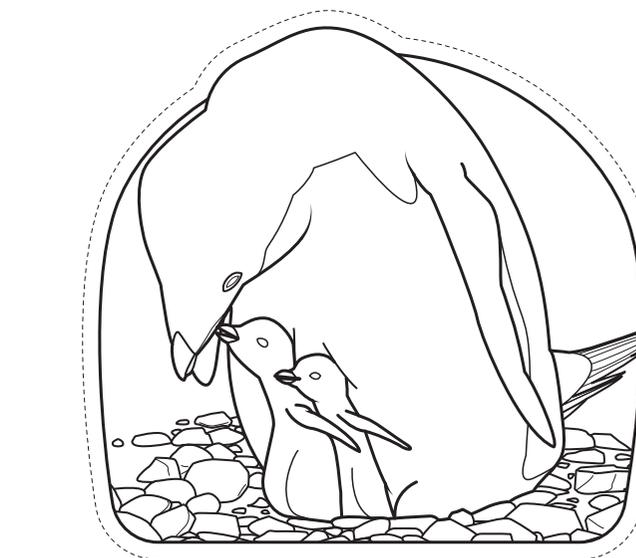

Chicks grow quickly. They are able to swim on their own in about nine weeks.

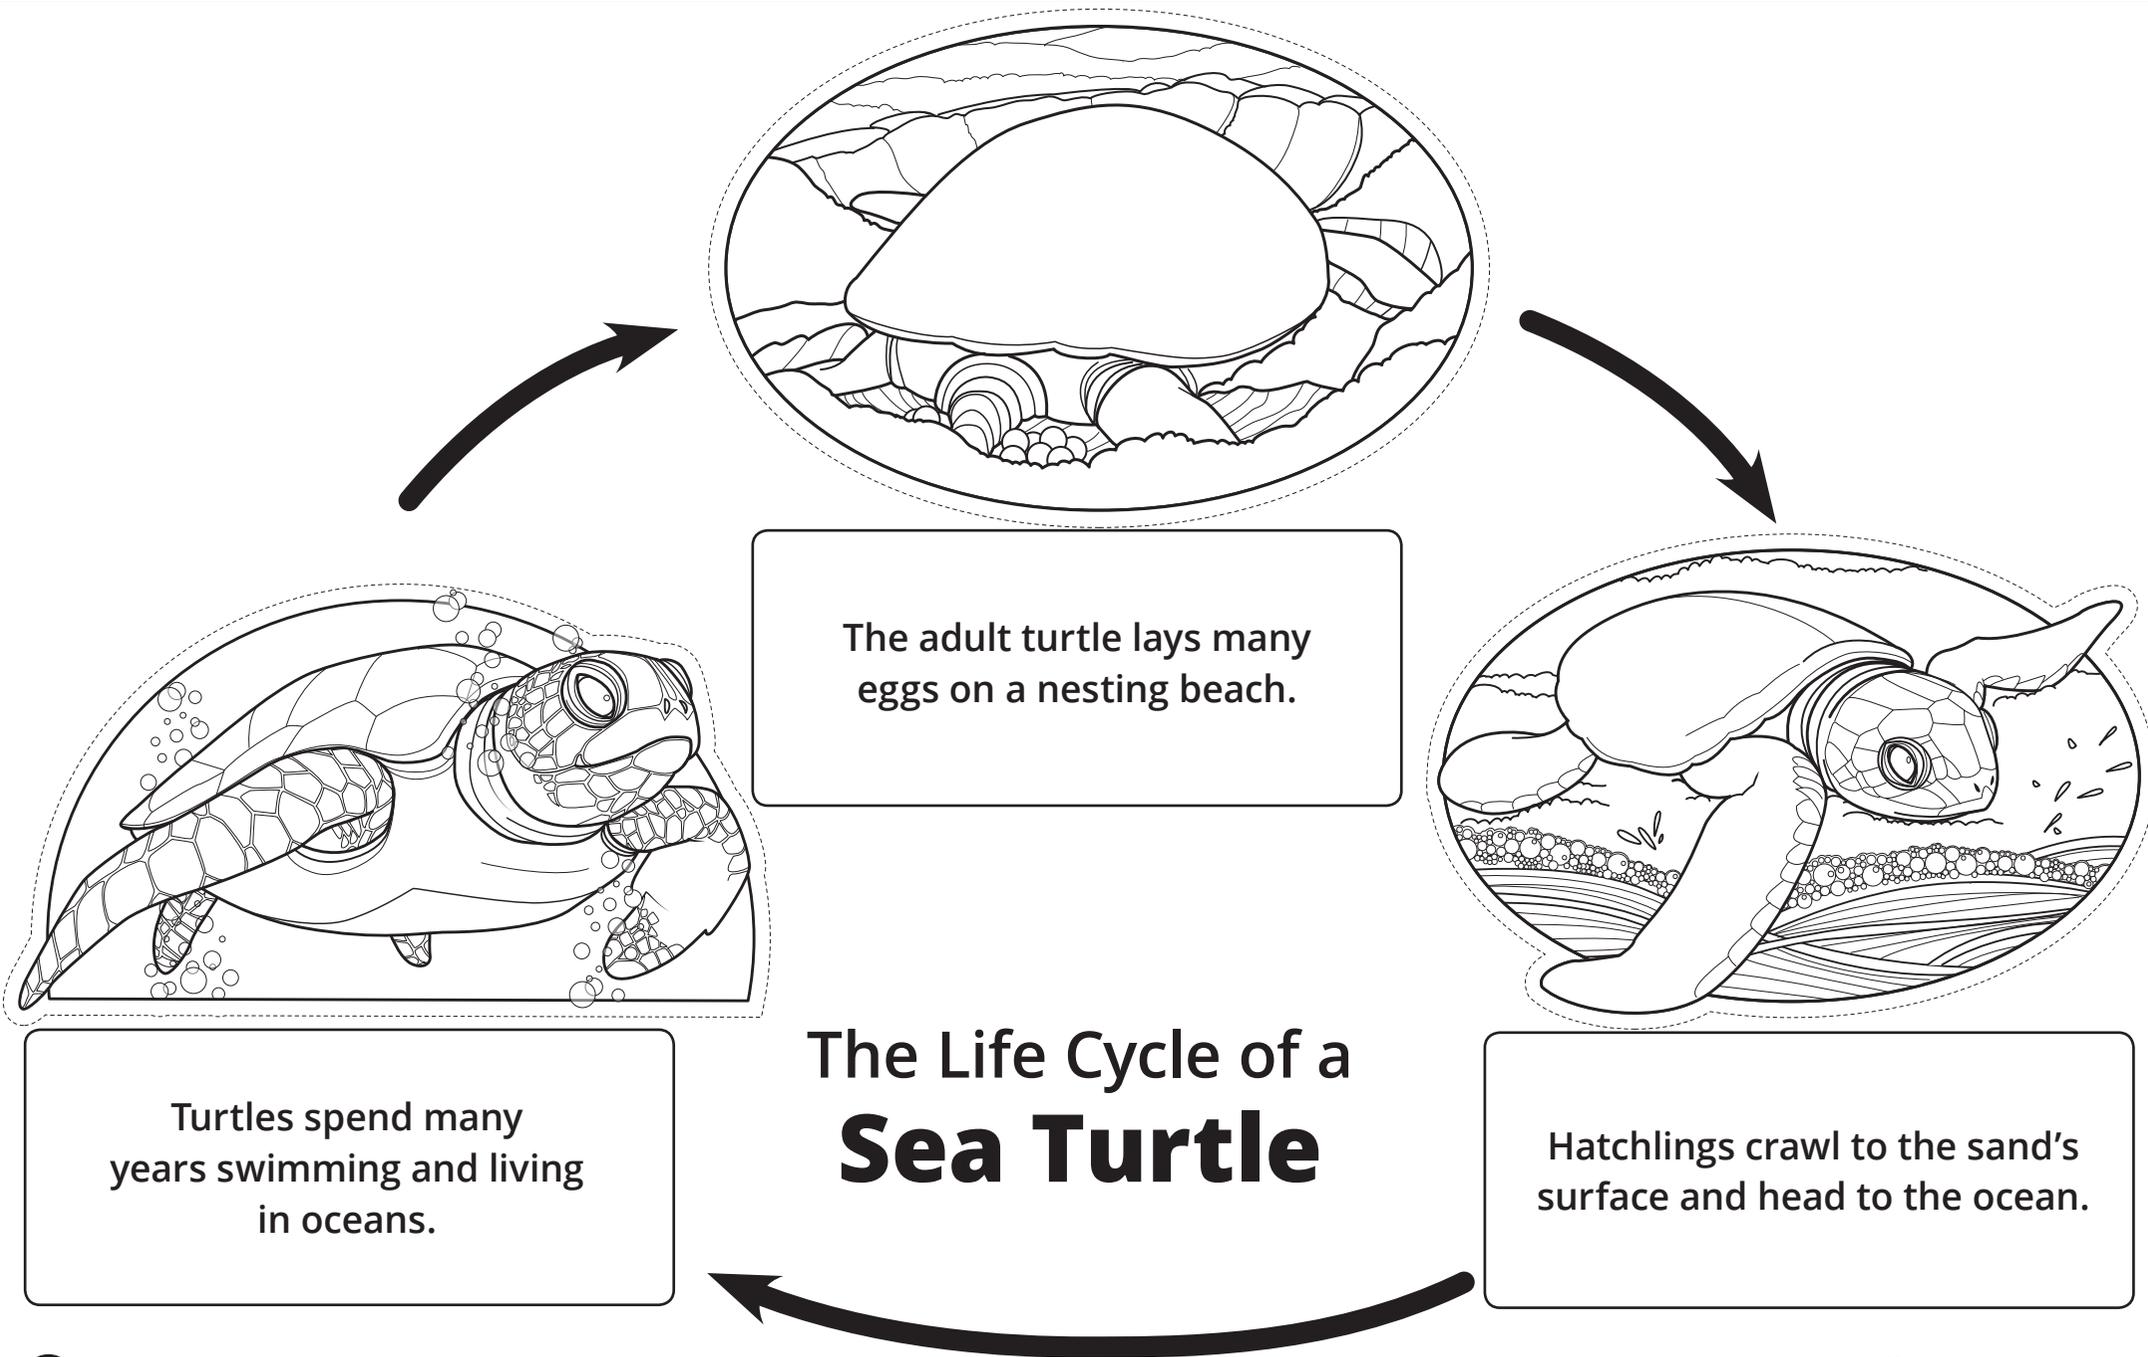

Mother penguin lays two eggs in a nest. The mother and father take turns looking after the eggs and hunting for food.

The chicks hatch. They have downy feathers.

The Life Cycle of an Adélie Penguin

The adult turtle lays many eggs on a nesting beach.
